Code of Business Ethics

The first element of the STI Code of Business Ethics is putting the interests of patients and client facilities, above our personal and individual interests. It is in the best interest of all to avoid conflicts of interest between the clients, associates, and staff. STI has developed corporate compliance guidelines to supplement and reinforce our client facilities' existing policies and procedures. This Code of Business Ethics is also meant to assist STI in complying with all applicable laws, rules and regulations.

Any associate can raise concerns and make reports without fear of reprisal or retaliation. All reports and inquiries are handled confidentially to the greatest extent possible under the circumstances. You may choose to remain anonymous, though in some cases that can make it more difficult to follow up and ensure resolution to the situation. STI wants every associate to report violations of our ethical or other principles whenever you see them or learn

about them as a requirement of your employment. If you do not know whether something is a problem, please ask a member of management.

Disciplinary Action

STI has established workplace standards of performance and conduct as a means of maintaining a productive and cohesive working environment. A positive, progressive approach is taken to solve discipline problems, which honors an associate's self-respect, rather than create the fear of losing a job. Our system emphasizes correction of the offensive behavior. If correction of the problem and sustained improvement does not occur, termination may result. The following may be grounds for disciplinary action, up to and including termination:

- Accepting an assignment and not reporting to work or not notifying us.

Also, being under the influence of drugs or alcohol, while on company property, in company vehicles, or while engaged in company activities is strictly forbidden. A violation of this policy will result in disciplinary action up to and including termination. Depending upon the circumstances, other action, including notification of appropriate law enforcement agencies, and professional licensing boards, may be taken against any violator of this policy. In accordance with the Drug- Free Work-Place Act of 1989, as a condition of employment, patient care providers must comply with this policy and notify management within five (5) days of conviction for any use of, or distribution of a controlled substance. Failure to do so will result in immediate termination of employment pending the outcome of any legal investigation and conviction.
- For the protection of our associates, the public, and to insure an environment is free from the influence of illegal drugs as is reasonably and practically possible, the company may require a pre-employment drug screen, annual drug employment screen and reserves the option to conduct a “for cause” drug screen for the presence of illegal drugs under certain conditions. This may also be at the request of any of our clients. Consent to the testing program will be a condition of further employment of each associate. If any director, manager, supervisor or other company officer or client representative has any suspicion that an associate under his or her supervision may be affected by or under the influence of illegal drugs, the associate under suspicion will be asked to undergo a laboratory test to determine the presence of illegal drugs. Refusal to take the test will subject the associate to immediate termination. Additionally, consistent with the law, drug and alcohol screening tests will be given after accidents or near misses, or upon reasonable suspicion of alcohol or drug use, when a client requires pre-assignment testing, or upon any other circumstances which warrant a test.

Sexual and Other Unlawful Harassment

Actions, words, jokes, or comments based on an individual's sex, race, color, national origin, age, religion, disability, sexual orientation, or any other legally protected characteristic will not be tolerated.

Sexual Harassment is defined as unwanted sexual advances, or visual, verbal, or physical conduct of a sexual nature.  - Submission or rejection of the conduct is used as a basis for making employment decisions, or
 - The conduct has the purpose or effect of interfering with work performance or creating an intimidating, hostile, or offensive work environment.

Upon experiencing or witnessing sexual or other unlawful harassment in the workplace, report it immediately to your supervisor. If the supervisor is unavailable or you believe it would be inappropriate to contact that person, you should immediately contact the STI Corporate Office or any other member of management. You can raise concerns and make reports without fear of reprisal or retaliation. All allegations of sexual harassment will be quickly and discreetly investigated. To the greatest extent possible, the alleged victim's confidentiality, that of any witnesses, and the alleged harasser will be protected against unnecessary disclosure. When the investigation is completed, the alleged victim will be informed of the outcome of the investigation. Any supervisor or manager who becomes aware of possible sexual or other unlawful harassment must immediately advise the CEO or any member of management so the allegation can be investigated in a timely and confidential manner. Anyone engaging in sexual or other unlawful harassment will be subject to disciplinary action, up to and including termination of employment.

Resolution of Complaints (From Staff and Customers)

A Customer Service Complaint is any complaint and/or concern from one of our valued customers regarding a situation or incident that results in dissatisfaction of that customer. The purpose of our complaint policy is to:

- To have a positive impact in improving customer service and satisfaction.

- To understand the causes that underlie a complaint and to focus on making changes to systems and processes to reduce the probability of a similar complaint in the future.

STI accepts complaints from persons who believe that they have experienced a violation of their rights. The following guidelines shall be followed in resolving complaints. Complaints must be filed within 30 days of the alleged act.

- The complaint is the written document that describes the occurrence and why the person filing the complaint believes the action or incident was in violation of his/her rights.
- An individual seeking to file a complaint needs to contact STI management. An intake interview or phone interview will be conducted with the complaining party.
- After a careful screening process, the complaint is investigated to determine if there is sufficient evidence to support the allegation. The complaint documentation must contain a claim which constitutes a violation of the complaining person's rights.
- A complaint may be settled at any time after it is filed. Opportunities will be given to all parties involved to ask questions, provide information, and suggest witnesses to resolve the complaint.
- As the investigation proceeds, individuals will be interviewed and pertinent records and documents will be reviewed.
- The person filing the complaint must cooperate fully by providing accurate information and by supplying documents to support the allegations.
- All information gathered during an investigation is subject to disclosure unless otherwise protected by the individual's right to privacy (e.g. medical records).
- If the complaint is substantiated, a reconciliation conference to settle the complaint will be scheduled. Settlement terms may require:
 - Restoration of previously denied rights.
 - Compensation of any out-of-pocket losses incurred by person filing complaint
 - Correction of other harm(s) resulting from the violation(s).
 - Modification of practices that adversely affect persons protected under law
 - Other actions to eliminate the effects of violation of rights.

Our goal is to always provide you with a consistent level of service. If for any reason, you are dissatisfied with our service or the service, we encourage you to contact the STI Management to discuss the issue. STI has processes in place to resolve complaints in an effective and efficient manner Any individual that has a concern about the quality and safety of patient care delivered by STI healthcare professionals, which has not been addressed by STI

management, is encouraged to contact the Joint Commission at www.jointcommission.org or by calling the Office of Quality Monitoring at 630.792.5636.

Clinical Incidents & Sentinel Events

Clinical staff must recognize the importance of following effective procedures and are encouraged to speak up if something has compromised or might compromise patient safety and quality.

A Clinical Incident is any event or series of events that resulted in or had the potential to result in an adverse patient outcome. Examples of a clinical incident includes but are not limited to Omission of treatment, deviation from policy, medication errors, improper equipment usage, IV Blood complications, patient fall, inaccurate clinical assessment, patient or physician complaint. Clinical staff should notify STI of any clinical incidents that occur while on assignment, regardless of an adverse outcome.

A sentinel event is an unexpected occurrence involving serious physical or psychological injury or death or the risk thereof. These events must be reported to the Management Consultant within 24 hours of the occurrence. The hospital will conduct a Root Cause Analysis for all clinical incidents and sentinel events, to identify the causes of the error. The Management Consultant will work closely with any staff involved in an error, including supporting them through the difficult time, facilitating communication between the clinical staff and the customer about the event, and based on the root cause analysis, plan for improvement activities.

In the event of deviation of practice according to the professional practice act, fraudulent behaviors, narcotic abuse or deviation and/or other aberrant or illegal behavior, each event is documented and a report is made, which includes information from the customer. Each situation is reported according to the guidelines of the appropriate professional association and Professional Licensing Body, by the CEO and/or Management Consultant.

Work Related Injuries and/or Exposures

STI provides Workers Compensation insurance for its associates as required by law. It is our philosophy that if an associate is injured while at work, it is our intent to assist that associate to return to work as soon as possible. The associate is obligated to report a work-related injury to STI as soon as possible. An Injury Report Form needs to be completed by the associate as soon as possible after the injury.

Depending on the severity of the injury and when the injury was reported will determine where the associate will be seen by a physician.

1. If the injury is severe, a needle stick, the associate was exposed to TB, they will follow hospital protocol and go to Associate Health or the Emergency Room.
2. If the injury is not severe the associate should be referred to their Primary Treating Physician (PTP). The associate must bring to the facility the updated doctor's report right after the appointment.

3. It is important to notify the designated medical provider that you are an injured worker and that it is a Worker's comp visit. The status report should be faxed to the facility immediately after the appointment. If the associate must be seen right away so they can get back to work it is OK for them to be seen by the hospital's Associate Health or the Emergency Room.
4. If the doctor returned the associate to full duty with no restrictions, the associate should be sent for retraining related to the injury. If the doctor returns the associate to restricted work (modified duty), STI may make a modified duty assignment and send the associate for retraining related to the injury. If the associate is taken off work, the wage statement must be faxed to Care West Claims administered by Pegasus (Fax# 209-574-2839) ASAP.

Orientation

STI will provide all new associates with an orientation to the company's policies and procedures. Each associate will receive an Associate Handbook. Facilities may also require some form of orientation. The amount of time required by each facility varies. Some require computer training classes and orientation prior to the first shift worked. The staffing coordinator will explain required orientation to all associates prior to scheduling first shift with a facility. Orientation time worked at the facility is paid at the orientation rate. (Usually less than regular pay rate)

Some facilities require that their specific pre-employment orientation "packets" be completed by the prospective caregiver at STI before the first shift is worked, and there is no pay for this required activity.

The first time you visit a facility the following guidelines should be followed:

- Report approximately one (1) hour early for orientation (it may vary for each facility).
- Carry photo ID for evidence of identity when reporting for assignment
- Take your nursing license and certifications with you
- Report to the appropriate supervisor
- It is expected that the healthcare practitioner locates and complies with the facility policy and procedures manual, locate fire pulls, crash cart, med. room, linen cart, and appropriate exits before your shift starts.
- Always dress in proper attire when working at the facility. Orientation is only paid when the time has been properly verified by facility staff.
- Occasionally, a STI associate may show up early as directed for orientation shift and no one is available for orientation. Please take it upon yourself to utilize this time to become familiar with the floor layout and the location of vital items you may need to function effectively on your shift. It will be to your advantage to have knowledge of the location of the policy and procedures manual, fire pulls, crash cart, med. room, linen cart, and appropriate exits prior to the onset of your shift.

Floating Policy

STI associates may only be placed in assignments that match the job description for which STI assigns them and where the employee has demonstrated competency on file with STI. If an associate is asked to float to another department with the customer, the department must be a like department or unit and the float associate must have demonstrated previous competency and have the appropriate certifications, credentials for that department/unit. Associates should only be floated to areas of comparable clinical diagnoses and acuities. The following procedures should be followed for healthcare professionals and nurses who are assigned to an area in which they do not feel competent:

- The healthcare provider will immediately notify STI,
- The Associate is obligated to inform the hospital of his/her professional limitations based upon their scope of practice standards and upon STI client contract specifications as they relate to the assignment.
- The CEO and/or Management Consultant at STI will work within the bounds of the Associates scope of practice and the hospital contract to resolve the issue.
- STI will pay nurse for hours worked up until the end of his/her shift.

Continuing Education

Ongoing continuing education is the responsibility of STI associates to ensure that all clinical staff have a current knowledge and practice base. STI maintains information on available resources for BLS, ACLS, PALS, etc. The following online education programs are also available for continuing education; however, this is not an inclusive list of available resources: www.nursingspectrum.com, www.Cmelist.com, www.AATBS.com, www.AART.com, www.ADHA.org, www.AARC.org, www.RXschool.com, www.Care2learn.com, www.lifesavered.com

Evidence of continuing education and annual required in-service education are part of the ongoing competency assessment program and will be maintained in your personnel file. Please provide STI with copies of your continuing education certificates.

Associate Performance Review

- Every healthcare professional employed by STI, who has worked at least 500 hours in the last year, will have an annual performance evaluation carried out by the STI, on or around your anniversary date.
- STI will attempt to obtain feedback from clients regarding clinical staff competence and ongoing performance of professional associates. Unfortunately, some clients may not cooperate with STI in this regard, so STI follows a ‘competence by exception’ philosophy. In the absence of client feedback, unless there is evidence of a

performance issue, we assume that our associates are meeting performance expectations, and “no negative feedback” may be used in the performance review.

- Feedback from our clients regarding clinical and/or professional performance is addressed with our associates immediately. Follow-up with our clients is completed as quickly as possible, always within an appropriate time frame.
- Annual skills checklists which apply to your specialty area of work will be completed by every health professional employed by STI.
- When training needs are identified, an opportunity to complete the training will be provided at the earliest possible occasion.
- STI assesses aspects of the associate's competence at hire, at performance evaluation, and as needed or required by state licensing agencies. This will help to ensure that associates have the skills, or can develop the skills needed to perform their duties.
- STI Management is responsible to ensure that any areas of development are identified and addressed on an ongoing basis.

Do Not Return Policy

STI is committed to providing a higher standard of service to our clients and to the delivery of safe, quality patient care. As a STI associate, you play an essential role in our success delivering excellent customer service and in our ability to achieve and maintain Joint Commission Certification. Poor performance by our associates, resulting in a “Do Not Return” status, can negatively impact STI’s reputation and that of our associates.

Do Not Send Prevention Curriculum

Do Not Sends are usually subjective in nature. However, there are things we as Agency nurses can do to avoid Do Not Sends.

Be on time to all shifts.

When scheduled at a facility for the first time arrive on the unit 30 to 45min early. To assure being on time, preparation begins the night before, or day of your night shift. Have clothes, nursing tools, lunch etc. prepared before sleeping. Get to bed early to ensure 8 hrs. of sleep. Wake up early enough to eat before you leave for shift.

Make sure you have accurate directions and facility phone numbers before you begin driving to the shift.

Do not sign in and out at the same time!

Remember: Arriving early allows the Agency nurse to familiarize themselves with the unit, get organized, meet the Charge Nurse and make a positive first impression. Signing in and out at the same time is fraud.

Take a detailed report.

Pay close attention to the report you will receive from the shift prior and ask questions as needed.

Rationale: This is of paramount importance! Sets the tone for the entire shift and provides the foundation for following the plan of care. Focus on initial assessments and interventions. Taking a detailed report and reviewing the pt.'s chart during the first half of your shift also prepares the Agency nurse to give knowledgeable, relevant care.

Show Initiative.

Locate the Charge nurse, introduce yourself, ask to be shown around, and identify your resource person for the shift (if initial shift @ facility). Communicate early and often any relevant information to the Charge nurse such as: changes in pt. condition, difficulty with or questions about; assignment, staff, equipment, or documentation tools.

Rationale: Allows Charge nurse to adjust or aid in a timely manner, to provide the safest pt. care and prevent a delay in pt. treatment.

Avoid handling personal business during shift.

Talking on cell phones or using facility information systems for personal use (other than in an emergency or away from patient the care area during breaks) is strongly discouraged and reflects poorly on the Agency nurse.

Rationale: This behavior often leads to directly to Do not sends.

Make every attempt to do things as prescribed by the Facility where you are assigned.

Please respect all our facilities policies and procedures, without complaint or argument. However, if you have been asked to perform a task or procedure you feel will place a pt. in danger or you feel unqualified to perform, contact your immediate supervisor and/or go up the chain of command until you feel you have been able to express your concern professionally and respectfully.

If one you encounter a situation in which you feel obligated to question a request in order to maintain the safest pt. care environment, please follow the following suggestions:

1. Communicate with STI and the facility.
2. Document the incident in your own words before leaving the facility.
3. Furnish signed and dated, copies of your documentation of the incident to STI, the Nursing Supervisor of the facility in which you were working and retain a copy for yourself.

Rationale: Knowledge of, and compliance with each facilities policies and procedures are fundamental elements of professionalism, providing safe pt. care and creating an impression

that makes a facility ask for an Agency nurse specifically.

Practice the 8 rights of medication administration.

1. Right Patient
2. Right Medication
3. Right Dose
4. Right Time
5. Right Route
6. Right Documentation
7. Right Reason
8. Right response

If a agency nurse is confused regarding any aspect of the medication administration process, clarification with the charge nurse and/or ordering physician, becomes an immediate priority, to ensure safe medication administration.

Rationale: Medication errors are serious, and can lead to negative patient outcomes, extended hospitalization, sentinel events such as severe injury and death. Most importantly for a careful, knowledgeable, and conscientious Agency nurse, medication errors are almost always preventable.

Understand and implement The Joint Commission’s National Patient Safety Goals, updated annually.

1. Identify patients correctly
2. Improve staff communication
3. Use medications safely
4. Use alarms safely
5. Prevent infection
6. Identify patient safety risks
7. Prevent mistakes in surgery

A complete and current set of National Patient Safety Goals should be posted or easily accessible on any unit in any Acute Care Facility.

Rationale: “The mission of Joint Commission is to continuously improve the safety and quality of care provided to the public” through the “support of performance improvement in healthcare organizations.”

Ask the Charge nurse or resource person to Audit your charting a few hours before end of shift.

Having the charge nurse/ resource person review our documentation, within a couple of hours of the end of our shift, displays exceptional accountability, reduces both the healthcare provider and facility's exposure to liability. Thorough documentation also helps convey important information to the following shift and ensures the necessary facts will be available when and if the chart is reviewed in the future.

Rationale: Complete documentation is an essential component of effective, efficient patient care. Since many Agency personnel work in multiple facilities in a short period of time, it is not an easy task to dot every "i" and cross every "t", without help from a knowledgeable source.

Practice excellent customer service.

Customer service extends further than our patients and their families; it includes every person we come into contact with while working. Our customers are every nurse, pharmacist, physician, respiratory care practitioner, etc. Every time we interact with another human being at work it is imperative that we greet that person with a friendly and helpful attitude.

Rationale: Treating our patients, their families, our colleagues and interdisciplinary team members with friendliness, respect and kindness creates an environment where being helpful and taking the extra step to solve someone's problem is not the exception but the "norm".

- Change in assignment or hours
- Inadequate supervision or support

Scheduling

The best way to get started with shifts is to be oriented at as many facilities in your local area as quickly as possible. Also give your STI office your availability to place into our scheduling database. STI will work diligently to match your skills with one of our many facilities.

When work, matching your abilities, is available and STI contacts you for an assignment, you are under no obligation to accept the assignment. You have been contacted because you are qualified and suited for that assignment. It is the responsibility of the associate to inform the scheduling coordinators of his/her availability. By communicating availability, the associate enhances their opportunity to work available shifts.

If you accept the assignment offered by STI our expectations are:

- Associate will be committed to work

- Associate will be prepared to work
- Associate will be appropriately dressed
- Associate will be to work on time.

STI would prefer you turn down a shift rather than to later cancel one you have accepted. Canceling a shift you have previously accepted is a very serious matter. It is important that you understand STI's policy regarding cancellation of shifts.

Occasionally our facilities will call with an immediate need. You may be contacted and offered work for this shift. You are under no obligation to accept this shift; however, this is a great way to pick up extra hours.

Cancellations

STI has the right to cancel any scheduled shift. Scheduled shifts may be canceled at any time within a negotiated time frame. We will attempt to notify you of cancellation as soon as we receive notice. To ensure proper notification of canceled shifts, please call and check with STI before you leave home to ensure that your shift is still scheduled.

It is your responsibility to be accessible so we can notify you of any changes or cancellation, as well as offer you other shift opportunities, should they be available. If STI schedulers are unable to reach associate, proper documentation will be made and no "Late Cancel" pay will be issued.

Occasionally, our facilities may have to cancel a previously booked shift because of a decrease in patient census. STI require our facilities a minimum of two 2 hours' notice for cancellations. However, cancellation times may vary with facilities; contact your STI office scheduler for further information.

If you have accepted a shift and need to cancel, you must give STI a minimum of four (4) hour's notice. Should you need to cancel your shift assignment, you should personally call and speak to the schedulers for cancellation. If the scheduler is not contacted personally, it will be considered a "no-call-no-show". Remember someone will always be available to answer your call, even on weekends and during the late-night hours.

If you are sick and unable to fulfill your assigned shift, you must personally call STI, and speak to the schedulers and advise them of your illness and when you might be available to return to work. Should you miss three consecutive scheduled shifts, you may be required to have a physician's verification of the illness prior to scheduling any further shifts. This note needs to include the date you may return to work and state that no work restrictions apply.

Obviously, bad weather does occur. Please, make every attempt to be aware of the weather forecast. Associates may need to leave earlier to fulfill patient care commitments. Our ultimate concern is for your safety and for the care of the patients. In the event of bad

weather, we will make every effort to assist you. Please give STI as much notice as possible.

No Call No Show

No Call No Shows are those shifts, in which an associate previously books and fails to show up and did not personally notify our scheduling office. A No Call No Show on any assignment may be considered grounds for immediate termination of employment.
